## Landmark Resort Introduces New Website

**Egg Harbor, Wis.** (For Immediate Release) – The marketing team at the Landmark Resort has been very busy of late, developing a new design, as well as thinking up wonderful new content and placing high-quality photos on the resort's new web site. So it's with great pleasure that we bring to you our latest creation: [www.thelandmarkresort.com](http://www.thelandmarkresort.com)

We know that many users are very passionate about their web site use, so we concentrated on user-friendly navigation and enlarged, professional-quality photographs to tell our story. Our simple goal with the resort's website is to bring you a strong visual tour of the resort and answer your questions.

Over the coming weeks and months, we will be continuing to build the web site to ensure that our content is always relevant to our guests. The web site design was developed on the Engage platform in partnership with Infinity technology of Green Bay.

The Landmark Resort is Door County's largest resort with 294 suites. The property features spacious one, two and three-bedroom suites. Each is tastefully appointed. Comfortable and casual, the accommodations reflect Door County's relaxed attitude. With alternate views of the forested countryside or Green Bay's glistening waters, the suites include a fully-equipped kitchen, living room, and deck within a smoke-free environment. All of the units are air-conditioned, feature cable television, a DVD player, and free wireless internet access.
